

H

- Track what we have
- Track current orders
- Track current Production Plan
- Track needs assuming nothing changes
- Identify weak points/bottlenecks
- Identify alternatives for low-supply

F

- Potential markets for expansion
- Potential issues with current markets

O

- Forecasting order trends

S

- Forecasting issues with Material Availability
- Identify alternatives for potentially scarce materials

R

- Combine everyone's work
- i.e. factor H + O + S + F's predictions into H's demand requests
- Make suggestions for new or change in current markets or design based on H, S, F
